A CONSTITUTION

OR

FORM OF GOVERNMENT

FOR

The Commonwealth of Massachusetts

PREAMBLE.

Objects of government.

The end of the institution, maintenance, and administration of government, is to secure the existence of the body politic, to protect it, and to furnish the individuals who compose it with the power of enjoying in safety and tranquillity their natural rights, and the blessings of life: and whenever these great objects are not obtained, the people have a right to alter the government, and to take measures necessary for their safety, prosperity, and happiness.

Body politic, how formed. Its nature.

The body politic is formed by a voluntary association of individuals: it is a social compact, by which the whole people covenants with each citizen, and each citizen with the whole people, that all shall be governed by certain laws for the common good. It is the duty of the people, therefore, in framing a constitution of government, to provide for an equitable mode of making laws, as well as for an impartial interpretation and a faithful execution of them; that every man may, at all times, find his security in them.

We, therefore, the people of Massachusetts, acknowledging, with grateful hearts, the goodness of the great Legislator of the universe, in affording us, in the course of His providence, an opportunity, deliberately and peace-

ably, without fraud, violence, or surprise, of entering into an original, explicit, and solemn compact with each other; and of forming a new constitution of civil government, for ourselves and posterity; and devoutly imploring His direction in so interesting a design, do agree upon, ordain, and establish, the following *Declaration of Rights, and Frame of Government*, as the CONSTITUTION OF THE COMMONWEALTH OF MASSACHUSETTS.

PART THE FIRST.

A Declaration of the Rights of the Inhabitants of the Commonwealth of Massachusetts.

Equality and natural rights of all men.

ARTICLE I. All men are born free and equal, and have certain natural, essential, and unalienable rights; among which may be reckoned the right of enjoying and defending their lives and liberties; that of acquiring, possessing, and protecting property; in fine, that of seeking and obtaining their safety and happiness.

Right and duty of public religious worship. Protection therein. 2 Cush. 104, 12 Allen, 129.

II. It is the right as well as the duty of all men in society, publicly, and at stated seasons, to worship the SUPREME BEING, the great Creator and Preserver of the universe. And no subject shall be hurt, molested, or restrained, in his person, liberty, or estate, for worshipping GOD in the manner and season most agreeable to the dictates of his own conscience; or for his religious profession of sentiments; provided he doth not disturb the public peace, or obstruct others in their religious worship.

Amendments, Art. XI. substituted for this.

III. [As the happiness of a people, and the good order and preservation of civil government, essentially depend upon piety, religion, and morality; and as these cannot be generally diffused through a community but by the institution of the public worship of GOD, and of public instructions in piety, religion, and morality: Therefore, to promote their happiness, and to secure the good order and preservation of their government, the people of this commonwealth have a right to invest their legislature with power to authorize and require, and the legislature shall, from time to time, authorize and require, the several towns, parishes, precincts, and other bodies politic, or religious societies, to make suitable provision, at their own expense, for the institution of the public worship of GOD, and for

Legislature empowered to compel provision for public worship;

the support and maintenance of public Protestant teachers of piety, religion, and morality, in all cases where such provision shall not be made voluntarily.

and to enjoin attendance thereon.

And the people of this commonwealth have also a right to, and do, invest their legislature with authority to enjoin upon all the subjects an attendance upon the instructions of the public teachers aforesaid, at stated times and seasons, if there be any on whose instructions they can conscientiously and conveniently attend.

Exclusive right of electing religious teachers secured.

Provided, notwithstanding, that the several towns, parishes, precincts, and other bodies politic, or religious societies, shall, at all times, have the exclusive right of electing their public teachers, and of contracting with them for their support and maintenance.

Option as to whom parochial taxes may be paid, unless, etc.

And all moneys paid by the subject to the support of public worship, and of the public teachers aforesaid, shall, if he require it, be uniformly applied to the support of the public teacher or teachers of his own religious sect or denomination, provided there be any on whose instructions he attends; otherwise it may be paid towards the support of the teacher or teachers of the parish or precinct in which the said moneys are raised.

All denominations equally protected. 8 Met. 162. Subordination of one sect to another prohibited.

And every denomination of Christians, demeaning themselves peaceably, and as good subjects of the commonwealth, shall be equally under the protection of the law: and no subordination of any one sect or denomination to another shall ever be established by law.]

Right of self government secured.

IV. The people of this commonwealth have the sole and exclusive right of governing themselves, as a free, sovereign, and independent state; and do, and forever hereafter shall, exercise and enjoy every power, jurisdiction, and right, which is not, or may not hereafter be, by them expressly delegated to the United States of America, in Congress assembled.

Accountability of all officers, etc.

V. All power residing originally in the people, and being derived from them, the several magistrates and officers of government, vested with authority, whether legislative, executive, or judicial, are their substitutes and agents, and are at all times accountable to them.

Services rendered to the public being the only title to peculiar privileges, hereditary offices are absurd and unnatural.

VI. No man, nor corporation, or association of men, have any other title to obtain advantages, or particular and exclusive privileges, distinct from those of the community, than what arises from the consideration of services rendered to the public; and this title being in nature neither hereditary, nor transmissible to children,

or descendants, or relations by blood, the idea of a man born a magistrate, lawgiver, or judge, is absurd and unnatural.

Objects of government; right of people to institute and change it.

VII. Government is instituted for the common good; for the protection, safety, prosperity, and happiness of the people; and not for the profit, honor, or private interest of any one man, family, or class of men: Therefore the people alone have an incontestable, unalienable, and indefeasible right to institute government; and to reform, alter, or totally change the same, when their protection, safety, prosperity, and happiness require it.

Right of people to secure rotation in office.

VIII. In order to prevent those who are vested with authority from becoming oppressors, the people have a right, at such periods and in such manner as they shall establish by their frame of government, to cause their public officers to return to private life; and to fill up vacant places by certain and regular elections and appointments.

All, having the qualifications prescribed, equally eligible to office. For the definition of "inhabitant," see Ch. 1, Sect. 2, Art. II.

IX. All elections ought to be free; and all the inhabitants of this commonwealth, having such qualifications as they shall establish by their frame of government, have an equal right to elect officers, and to be elected, for public employments. 122 Mass. 595, 596.

Right of protection and duty of contribution correlative.

X. Each individual of the society has a right to be protected by it in the enjoyment of his life, liberty, and property, according to standing laws. He is obliged, consequently, to contribute his share to the expense of this protection; to give his personal service, or an equivalent, when necessary: but no part of the property of any individual can, with justice, be taken from him, or applied to public uses, without his own consent, or that of the representative body of the people. In fine, the people of this commonwealth are not controllable by any other laws than those to which their constitutional representative body have given their consent. And whenever the public exigencies require that the property of any individual should be appropriated to public uses, he shall receive a reasonable compensation therefor.

XI. Every subject of the commonwealth ought to find a certain remedy, by having recourse to the laws, for all injuries or wrongs which he may receive in his person, property, or character. He ought to obtain right and

justice freely, and without being obliged to purchase it; completely, and without any denial; promptly, and without delay; conformably to the laws.

No subject shall be held to answer for any crimes or offence, until the same is fully and plainly, substantially and formally, described to him; or be compelled to accuse, or furnish evidence against himself. And every subject shall have a right to produce all proofs that may be favorable to him; to meet the witnesses against him face to face, and to be fully heard in his defence by himself, or his counsel, at his election. And no subject shall be arrested, imprisoned, despoiled, or deprived of his property, immunities, or privileges, put out of the protection of the law, exiled, or deprived of his life, liberty, or estate, but by the judgment of his peers, or the law of the land.

All warrants, therefore, are contrary to this right, if the cause or foundation of them be not previously supported by oath or affirmation, and if the order in the warrant to a civil officer, to make search in suspected places, or to arrest one or more suspected persons, or to seize their property, be not accompanied with a special designation of the persons or objects of search, arrest, or seizure: and no warrant ought to be issued but in cases, and with the formalities prescribed by the laws.

XV. In all controversies concerning property, and in all suits between two or more persons, except in cases in which it has heretofore been otherways used and practised, the parties have a right to a trial by jury; and this method of procedure shall be held sacred, unless, in causes arising on the high seas, and such as relate to mariners' wages, the legislature shall hereafter find it necessary to alter it.

Liberty of the press.

XVI. The liberty of the press is essential to the security of freedom in a state: it ought not, therefore, to be restrained in this commonwealth.

Right to keep and bear arms. Standing armies dangerous. Military power subordinate to civil. 5 Gray, 121.

XVII. The people have a right to keep and to bear arms for the common defence. And as, in time of peace, armies are dangerous to liberty, they ought not to be maintained without the consent of the legislature; and the military power shall always be held in an exact subordination to the civil authority, and be governed by it.

Moral qualifications for office.

XVIII. A frequent recurrence to the fundamental principles of the constitution, and a constant adherence to those of piety, justice, moderation, temperance, industry, and frugality, are absolutely necessary to preserve the advantages of liberty, and to maintain a free government. The people ought, consequently, to have a particular attention to all those principles, in the choice of their officers and representatives: and they have a right to require of their lawgivers and magistrates an exact and constant observance of them, in the formation and execution of the laws necessary for the good administration of the commonwealth.

Moral obligations of lawgivers and magistrates.

Right of people to instruct representatives and petition legislature.

XIX. The people have a right, in an orderly and peaceable manner, to assemble to consult upon the common good; give instructions to their representatives, and to request of the legislative body, by the way of addresses, petitions, or remonstrances, redress of the wrongs done them, and of the grievances they suffer.

Power to suspend the laws or their execution.

XX. The power of suspending the laws, or the execution of the laws, ought never to be exercised but by the legislature, or by authority derived from it, to be exercised in such particular cases only as the legislature shall expressly provide for.

Freedom of debate, etc., and reason thereof.

XXI. The freedom of deliberation, speech, and debate, in either house of the legislature, is so essential to the rights of the people, that it cannot be the foundation of any accusation or prosecution, action or complaint, in any other court or place whatsoever.

Frequent sessions, and objects thereof.

XXII. The legislature ought frequently to assemble for the redress of grievances, for correcting, strengthening, and confirming the laws, and for making new laws, as the common good may require.

Taxation founded on consent. 8 Allen, 247.

XXIII. No subsidy, charge, tax, impost, or duties ought to be established, fixed, laid, or levied, under any pretext whatsoever, without the consent of the people or their representatives in the legislature.

XXIV. Laws made to punish for actions done before the existence of such laws, and which have not been declared crimes by preceding laws, are unjust, oppressive, and inconsistent with the fundamental principles of a free government.

Ex post facto laws prohibited. 12 Allen, 421, 424, 428, 434.

XXV. No subject ought, in any case, or in any time, to be declared guilty of treason or felony by the legislature.

Legislature not to convict of treason, etc.

XXVI. No magistrate or court of law shall demand excessive bail or sureties, impose excessive fines, or inflict cruel or unusual punishments. 5 Gray, 482.

Excessive bail or fines, and cruel punishments, prohibited.

XXVII. In time of peace, no soldier ought to be quartered in any house without the consent of the owner; and in time of war, such quarters ought not to be made but by the civil magistrate, in a manner ordained by the legislature.

No soldier to be quartered in any house, unless, etc.

XXVIII. No person can in any case be subject to law-martial, or to any penalties or pains, by virtue of that law, except those employed in the army or navy, and except the militia in actual service, but by authority of the legislature.

Citizens exempt from law-martial, unless, etc.

XXIX. It is essential to the preservation of the rights of every individual, his life, liberty, property, and character, that there be an impartial interpretation of the laws, and administration of justice. It is the right of every citizen to be tried by judges as free, impartial, and independent as the lot of humanity will admit. It is, therefore, not only the best policy, but for the security of the rights of the people, and of every citizen, that the judges of the supreme judicial court should hold their offices as long as they behave themselves well; and that they should have honorable salaries ascertained and established by standing laws.

Judges of supreme judicial court. 3 Pick. 471. 1 Gray, 472. 4 Allen, 591. 7 Allen, 385. 105 Mass. 219, 221, 225.

Tenure of their office.

Salaries.

XXX. In the government of this commonwealth, the legislative department shall never exercise the executive and judicial powers, or either of them: the executive shall never exercise the legislative and judicial powers, or either of them: the judicial shall never exercise the legislative and executive powers, or either of them: to the end it may be a government of laws and not of men.

PART THE SECOND.

The Frame of Government.

The people, inhabiting the territory formerly called the Province of Massachusetts Bay, do hereby solemnly and mutually agree with each other, to form themselves into a free, sovereign, and independent body politic, or state, by the name of THE COMMONWEALTH OF MASSACHUSETTS.

CHAPTER I.

THE LEGISLATIVE POWER.

SECTION I.

The General Court.

Legislative department.

ARTICLE I. The department of legislation shall be formed by two branches, a Senate and House of Representatives; each of which shall have a negative on the other.

For change of time, etc., see amendments, Art. X.

The legislative body shall assemble every year [on the last Wednesday in May, and at such other times as they shall judge necessary; and shall dissolve and be dissolved on the day next preceding the said last Wednesday in May;] and shall be styled, THE GENERAL COURT OF MASSACHUSETTS.

Governor's veto. 99 Mass. 636.

II. No bill or resolve of the senate or house of representatives shall become a law, and have force as such, until it shall have been laid before the governor for his revisal; and if he, upon such revision, approve thereof, he shall signify his approbation by signing the same. But if he have any objection to the passing of such bill or resolve, he shall return the same, together with his objections thereto, in writing, to the senate or house of representatives, in whichsoever the same shall have originated; who shall enter the objections sent down by the governor, at large, on their records, and proceed to reconsider the said bill or resolve. But if after such reconsideration, two-thirds of the said senate or house of representatives, shall, notwithstanding the said objections, agree to pass the same, it shall, together with the objections, be sent to the other branch of the legislature, where it shall also be reconsidered, and if approved by two-thirds of the members present, shall have the force of a law: but in all such cases,

Bill may be passed by two-thirds of each house, notwithstanding.

the votes of both houses shall be determined by yeas and nays; and the names of the persons voting for, or against, the said bill or resolve, shall be entered upon the public records of the commonwealth.

And in order to prevent unnecessary delays, if any bill or resolve shall not be returned by the governor within five days after it shall have been presented, the same shall have the force of a law. 3 Mass. 567.

For exception in case of adjournment of the general court within the five days, see amendments, Art. I.

III. The general court shall forever have full power and authority to erect and constitute judicatories and courts of record, or other courts, to be held in the name of the commonwealth, for the hearing, trying, and determining of all manner of crimes, offences, pleas, processes, plaints, actions, matters, causes, and things, whatsoever, arising or happening within the commonwealth, or between or concerning persons inhabiting, or residing, or brought within the same: whether the same be criminal or civil, or whether the said crimes be capital or not capital, and whether the said pleas be real, personal, or mixed; and for the awarding and making out of execution thereupon. To which courts and judicatories are hereby given and granted full power and authority, from time to time, to administer oaths or affirmations, for the better discovery of truth in any matter in controversy or depending before them.

General court may constitute judicatories, courts of record, etc. 8 Gray, 1. 12 Gray, 147, 154.

Courts, etc., may administer oaths.

IV. And further, full power and authority are hereby given and granted to the said general court, from time to time to make, ordain, and establish, all manner of wholesome and reasonable orders, laws, statutes, and ordinances, directions and instructions, either with penalties or without; so as the same be not repugnant or contrary to this constitution, as they shall judge to be for the good and welfare of this commonwealth, and for the government and ordering thereof, and of the subjects of the same, and for the necessary support and defence of the government thereof; and to name and settle annually, or provide by fixed laws for the naming and settling, all civil officers within the said commonwealth, the election and constitution of whom are not hereafter in this form of government otherwise provided for; and to set forth the several duties, powers, and limits, of the several civil and military officers of this commonwealth, and the forms of such oaths or affirmations as shall be respectively administered unto them for the execution of their several offices and places, so as the same be not repugnant or contrary to

Section II.

Senate.

Senate, number of, and by whom elected. Superseded by amendments, Art. XIII., which was also superseded by amendments, Art. XXII.

Article I. [There shall be annually elected, by the freeholders and other inhabitants of this commonwealth, qualified as in this constitution is provided, forty persons to be councillors and senators for the year ensuing their election; to be chosen by the inhabitants of the districts into which the commonwealth may, from time to time, be divided by the general court for that purpose: and the general court, in assigning the numbers to be elected by the respective districts, shall govern themselves by the proportion of the public taxes paid by the said districts; and timely make known to the inhabitants of the commonwealth the limits of each district, and the number of councillors and senators to be chosen therein; provided, that the number of such districts shall never be less than thir-

Counties to be districts, until, etc.

And the several counties in this commonwealth shall, until the general court shall determine it necessary to alter the said districts, be districts for the choice of councillors and senators, (except that the counties of Dukes County and Nantucket shall form one district for that purpose) and shall elect the following number for councillors and senators, viz.: — Suffolk, six; Essex, six; Middlesex, five; Hampshire, four; Plymouth, three; Barnstable, one; Bristol, three; York, two; Dukes County and Nantucket, one; Worcester, five; Cumberland, one; Lincoln, one; Berkshire, two.]

Provisions as to qualifications of voters, superseded by amendments, Arts. III., XX., XXVIII., XXX., XXXI. and XXXII. Word "inhabitant" defined See also amendments, Art. XXIII., which was annulled by Art. XXVI. 12 Gray, 21. 122 Mass. 595, 597.

II. The senate shall be the first branch of the legislature; and the senators shall be chosen in the following manner, viz.: there shall be a meeting on the [first Monday in April,] annually, forever, of the inhabitants of each town in the several counties of this commonwealth; to be called by the selectmen, and warned in due course of law, at least seven days before the [first Monday in April,] for the purpose of electing persons to be senators and councillors; [and at such meetings every male inhabitant of twenty-one years of age and upwards, having a freehold estate within the commonwealth, of the annual income of three pounds, or any estate of the value of sixty pounds, shall have a right to give in his vote for the senators for the district of which he is an inhabitant.] And to remove all doubts concerning the meaning of the word "inhabitant" in this constitution, every person shall be considered as an inhabitant, for the purpose of electing and being elected into any office, or place within this state, in that town, district, or plantation where he dwelleth, or hath his home.

Selectmen to preside at town meetings.

The selectmen of the several towns shall preside at such meetings impartially; and shall receive the votes of all the inhabitants of such towns present and qualified to vote for senators, and shall sort and count them in open town meeting, and in presence of the town clerk, who shall make a fair record, in presence of the selectmen, and in open town meeting, of the name of every person voted for, and of the number of votes against his name: and a fair copy of this record shall be attested by the selectmen and the town clerk, and shall be sealed up, directed to the secretary of the commonwealth for the time being, with a superscription, expressing the purport

And the inhabitants of plantations unincorporated, qualified as this constitution provides, who are or shall be empowered and required to assess taxes upon themselves toward the support of government, shall have the same privilege of voting for councillors and senators in the plantations where they reside, as town inhabitants have in their respective towns; and the plantation meetings for that purpose shall be held annually [on the same first Monday in April], at such place in the plantations, respectively, as the assessors thereof shall direct; which assessors shall have like authority for notifying the electors, collecting and returning the votes, as the selectmen and town clerks have in their several towns, by this constitution. And all other persons living in places unincorporated (qualified as aforesaid) who shall be assessed to the support of government by the assessors of an adjacent town, shall have the privilege of giving in their votes for councillors and senators in the town where they shall be assessed, and be notified of the place of meeting by the selectmen of the town where they shall be assessed, for that purpose, accordingly.

Be it enacted, etc., as follows:

City of Lynn may pay a sum of money to James S. Kennedy.

SECTION 1. The city of Lynn, acting by its municipal council, may pay to James S. Kennedy on account of injuries suffered by him while in the performance of his duty as a gateman in Central square in said city, in the attempt to prevent a collision between a train on the Boston and Maine railroad and a fire engine belonging to the city on its way to extinguish a fire, a sum not exceeding three hundred dollars a year, payable in equal monthly installments, for the period of ten years.

Chap. 276 AN ACT TO AUTHORIZE THE TOWN OF WEYMOUTH TO MAKE AN ADDITIONAL WATER LOAN.

Be it enacted, etc., as follows:

Town of Weymouth Water Loan, Act of 1913.

SECTION 1. The town of Weymouth, for the purpose of extending its system of water works as authorized by chapter

one hundred and seventy-four of the acts of the year eighteen hundred and eighty-one, and for paying the necessary expenses and liabilities incurred under the provisions of this act, may issue from time to time bonds or notes to an amount not exceeding fifty thousand dollars in addition to the amounts heretofore authorized by law to be issued by the town for water supply purposes. Bonds or notes issued under authority of this act shall bear on their face the words Town of Weymouth Water Loan, Act of 1913; shall be payable by such annual payments, beginning not more than one year after the respective dates thereof, as will extinguish each loan within thirty years from its date; and the amount of such annual payment of any loan in any year shall not be less than the amount of the principal of said loan payable in any subsequent year. Each authorized issue of bonds or notes shall constitute a separate loan. Said bonds or notes shall bear interest at a rate not exceeding four and one half per cent per annum, payable semi-annually, and shall be signed by the treasurer of the town and countersigned by the water commissioners. The town may sell such bonds or notes at public or private sale, upon such terms and conditions as it may deem proper, but they shall not be sold for less than their par value. The whole amount of such bonds or notes issued by the town, together with those heretofore authorized to be issued by said town for the purposes named in said chapter one hundred and seventy-four, shall not in any event exceed the sum of five hundred and sixty-five thousand dollars.

Payment of loan.

Section 2. Said town shall at the time of authorizing said loan or loans provide for the payment thereof in accordance with section one of this act; and when a vote to that effect has been passed, a sum which, with the income derived from water rates, will be sufficient to pay the annual expense of operating its water works and the interest as it accrues on the bonds or notes issued as aforesaid by the town, and to make such payments on the principal as may be required under the provisions of this act, shall, without further vote, be assessed by the assessors of the town annually thereafter, in the same manner in which other taxes are assessed, until the debt incurred by said loan or loans is extinguished.

Section 3. This act shall take effect upon its passage.

Approved March 10, 1913.

An Act relative to the sewerage system in the town of Lexington. *Chap.* 322

Be it enacted, etc., as follows:

Sewer assessments in the town of Lexington.

Section 1. The owners of lands benefited and abutting on streets or ways, public or private, in which sewers shall be constructed in the town of Lexington under the provisions of chapter five hundred and four of the acts of the year eighteen hundred and ninety-seven, as amended by chapter three hundred and fifty-nine of the acts of the year nineteen hundred and six, and by chapter two hundred and one of the acts of the year nineteen hundred and eleven, shall pay to the town as a tax in return for the special benefits received by such abutting lands an assessment or charge of fifty cents a running front foot, to be assessed by the commissioners in the manner and with the effect herein and in sections six, seven, eight, nine and ten of said chapter three hundred and fifty-nine provided. In cases of corner lots the commissioners shall exempt from assessment so much of the frontage upon one of the streets or ways concerned as they shall consider just and equitable. In the case of each abutting estate the tax shall be considered as assessed upon the specified lot to the extent of its whole depth, if the same nowhere extends back from the side line of the street or way more than one hundred feet, otherwise upon so much of the lot as lies between such side line and a line drawn parallel with and one hundred feet distant therefrom; and only the land upon which the tax is so assessed shall be subject to the lien arising therefrom. No land shall be taxed or assessed hereunder more than once. No drain or sewer from an estate or a part of an estate not already assessed or not at the time liable to assessment, as herein provided, shall be entered into a common sewer except upon the payment of such an assessment or charge, and upon such other terms and conditions, as the commissioners shall determine.

Town of Lexington Sewer Loan, Act of 1913.

Section 2. Said town, for meeting necessary expenses and liabilities incurred or to be incurred under the provisions of said chapter five hundred and four as amended, may issue from time to time bonds or notes to an amount not exceeding the amounts heretofore authorized by law to be issued by said town for sewerage purposes. Bonds or notes issued under authority of this act shall bear on their face the words, Town of Lexington Sewer Loan, Act of 1913; shall be payable by such annual payments, beginning not more than one

year after the respective dates thereof, as will extinguish each loan within thirty years from the date thereof; but the amount of such annual payment of any loan in any year shall not be less than the amount of the principal of said loan payable in any subsequent year. Each authorized issue of bonds or notes shall constitute a separate loan. Said bonds or notes shall bear interest at a rate not exceeding four and one half per cent per annum, payable semi-annually, and shall be signed by the treasurer of the town and countersigned by the water and sewer commissioners. The town may sell such bonds or notes at public or private sale, upon such terms and conditions as it may deem proper, but they shall not be sold for less than their par value.

Payment of loan.

Section 3. Said town shall at the time of authorizing said loan or loans provide for the payment thereof in accordance with section two of this act; and when a vote to that effect has been passed, a sum which with the income derived from assessments, rates, or charges in lieu thereof, will be sufficient to pay the annual expense of operating its sewerage system and the interest as it accrues on the bonds or notes issued as aforesaid by the town, and to make such payments on the principal as may be required under the provisions of this act, shall, without further vote, be assessed by the assessors of the town annually thereafter, in the same manner in which other taxes are assessed, until the debt incurred by said loan or loans is extinguished.

Establishment of estimated average cost.

Section 4. In the application of sections thirty-one to thirty-four, inclusive, of chapter forty-nine of the Revised Laws to said town, and generally in the matter of connecting estates with sewers, the commissioners may, so far as that part of the connection which lies between the property line and the entrance to the sewer is concerned, establish and alter from time to time as to each street or way a scale of estimated average costs, the calculations to be made as if the public sewer concerned were laid in the centre of the street or way, to the end that owners may have or suffer no advantage or disadvantage by reason of the fact that the sewer may be on one side or the other of the centre; and the amount to be paid by or assessed to an abutting owner shall, as regards said part of a connection, be determined by such estimated average cost and not by the actual amount thereof.

Terms defined.

Section 5. The terms "sewer commissioners" and "commissioners" found in said chapters three hundred and fifty-

nine, two hundred and one and herein shall be construed as meaning the consolidated board of water and sewer commissioners in said town established by chapter two hundred and seventy-seven of the acts of the year nineteen hundred and nine.

Section 6. Section ten of chapter five hundred and four of the acts of the year eighteen hundred and ninety-seven, sections two, three, four and five of chapter three hundred and fifty-nine of the acts of the year nineteen hundred and six, and section two of chapter two hundred and one of the acts of the year nineteen hundred and eleven are hereby repealed. Section 3. Section seven of said chapter six hundred and six is hereby amended by inserting after the first sentence the following: — But wherever the said line of bulkhead shown on said last named plan is north or west of the harbor line established by chapter three hundred and thirteen of the 1910, 606, § 7, amended.

acts of the year eighteen hundred and sixty-seven, referred to in section six of this act, the city of Lynn may build said bulkhead upon any line which does not lie seaward of said harbor line, — and by adding at the end thereof the following: — After the report of the said commission on the investigation of Lynn harbor shall have been presented to the municipal council of Lynn, said council may, with the approval of the board of harbor and land commissioners, and prior to the submission of the question to the voters of said city under the provisions of section three of said chapter six hundred and six, as amended, make any change or modification in said report that may seem to them desirable. In approving said report, said council shall plainly specify the cost of carrying out the recommendations in the report of said commission on investigation, or of any modification thereof, and if accepted by the voters, the city of Lynn shall have authority to borrow, in excess of its statutory limit of indebtedness, a sum not exceeding one million two hundred thousand dollars, and to issue therefor from time to time bonds or notes. The city may sell the said securities at public or private sale upon such terms and conditions as it may deem proper, but they shall not be sold for less than their par value and the proceeds shall be used only for the purpose herein specified. Nothing herein contained, however, shall be construed as relieving the board of harbor and land commissioners of the right or duty to expend in improving Lynn harbor any portion of whatever sums may have been, or shall be, placed at their disposal for the improvement of the harbors of the state, but any appropriation hereunder by the city of Lynn shall be deemed evidence of the general public advantage and local interest referred to in section two of chapter four hundred and eighty-one of the acts of the year

The work contemplated under the provisions of this act shall all be done with the approval of the said board, as provided in chapter ninety-six of the Revised Laws, except as is otherwise provided herein. When said board shall have constructed said bulkhead, and shall have filled all or a substantial part of the flats northerly thereof, the title of the commonwealth to the flats so filled and the rights therein shall pass to the city of Lynn without any compensation for the same or for the displacement of tidewater, under the provisions of chapter ninety-six of the Revised Laws; *provided, however,* that unless the construction work authorized in this section is begun and a substantial amount thereof completed within six years after the date of the passage of this act, the provisions of this section shall be null and void. The board of harbor and land commissioners shall determine what shall constitute a substantial amount of filling and construction work under the provisions of this section. Section 6. The said district shall, at the time of authorizing said loan or loans, provide for the payment thereof in accordance with the provisions of section five of this act;

If there should be a net surplus remaining after providing for the aforesaid charges, it may be used for such new construction as the water commissioners may determine upon, and in case a surplus should remain after payment for such new construction the water rates shall be reduced proportionately. No money shall be expended in new construction by the water commissioners except from the net surplus aforesaid, unless the district appropriates and provides money therefor. SECTION 9. If an owner or interested person lives out of the commonwealth, the said notices may be served upon him by a notary public, whose certificate of service under his notarial seal shall be sufficient evidence thereof.

The egresses and means of escape shall be kept unobstructed, in good repair and ready for use, and, if the inspector so di- Buildings to be provided with fire escapes, etc.

SECTION 23. The audience hall in a building which is erected or designed to be used in whole or in part as a theatre or in which any change or alteration shall be made for the purpose of using it as a theatre shall not be placed above the second floor of such building. The audience hall and each gallery of every such building shall, respectively, have at least two independent exits, as far apart as may be, and if the audience hall is on the second floor, the stairways from said floor to the ground floor shall be enclosed with fire-

Such certificate shall continue in force for not more than five years after its date, but so long as it continues in force it shall be conclusive evidence of a compliance by the person to whom it is issued with the provisions of this act. It shall be void if a greater number of persons than is therein specified are accommodated or employed or assemble, lodge or reside within such building or portion thereof, or if such building is used for any purposes materially different from Certificates of inspection. Notice of failure to conform, etc.

SECTION 28. If an inspector finds that any building or part thereof which is subject to the provisions of this act fails to conform thereto, or if any change is made therein which would render a certificate void according to the provisions of section twenty of this act, he shall give notice in writing to the owner, lessee, occupant or agent in charge thereof, specifying such additional provisions, egresses or other means of escape from fire as in his opinion may be necessary to make it conform to the provisions of this act and to obtain a certificate as aforesaid; and any such owner, lessee, occupant or agent in charge thereof, failing to comply with such notice for a period of thirty days, may be punished by a fine of not less than fifty nor more than one thousand dollars.

The forms of such blanks may be adapted to the circumstances of the class of buildings included in the provisions of section thirty of this act, but they shall be such as to enable the inspectors to report a rating on the points and in the form hereinafter specified, and shall include a detailed table of legal requirements, with a statement as to compliance or non-compliance with each. All inspectors inspecting theatres, special halls and public halls shall on the first of each week forward to the licensing officer the reports of their inspections of the previous week and shall rate each theatre, special hall or public hall on the following points in the following form: —

Rules of the air.

Section 3. Aviators while flying over any part of the commonwealth shall conform strictly to the following rules of the air: —

a. Meeting head on: — When two aeroplanes are in danger of meeting head on, each aviator shall change his course to the right. (Note: This method of passing being in accordance with the rules of the road on land and with the United States steamboat regulations at sea.)

b. Meeting obliquely: — When two aeroplanes threaten to meet at an angle, that aeroplane which has the other on its left shall have the right of way and shall continue its course with as little deviation as possible. The aviator who finds another aeroplane approaching him from the right shall change his course in order to avoid a collision. In changing his course the aviator may pass above, below, or on either side of the aeroplane having the right of way, but in any case shall not pass within one hundred feet of the aeroplane having the right of way. (Note: By giving the right of way to the aeroplane which has the other on its left hand this rule of the air is made to correspond with marine practice.)

c. Overtaking: — One aeroplane shall be considered as overtaking another when it approaches the other from a position which is in any degree to the rear of the leading aeroplane, whether it approaches from directly astern or obliquely from the right or left, downward or upward. It shall be the duty of an aviator overtaking another aeroplane to act on the assumption that the aviator ahead of him is ignorant of the approach of the other aeroplane and may change the course of his aeroplane without warning. The overtaking aviator shall therefore be held solely responsible for avoiding a collision, which he may do by directing his course to the right or to the left, upward or downward. He shall so direct his course that the overtaking aeroplane shall not pass within one hundred and fifty feet of the overtaken aeroplane.

Altitude at which air machines may fly over certain cities and towns.

Section 4. No air machine shall fly over a city in the commonwealth at an altitude of less than three thousand

feet, and no air machine shall fly over any town or village containing less than one thousand inhabitants except at an altitude of at least five hundred feet, and no air machine shall fly over any town or village in the commonwealth containing more than five thousand inhabitants excepting at an altitude of one thousand feet.

Altitude at which air machines may fly over massed assemblies, etc.

Section 5. No aviator shall fly over any massed assembly of one hundred or more people in the open, whether such people be grouped in a grandstand or massed in an open field; and no aviator shall intentionally throw or drop any missile or other article from an aeroplane in flight except over grounds devoted to flying or over open water unless he has previously obtained the special permission of the commission.

— over buildings, etc.

Section 6. When flying over buildings, persons or animals, an aviator shall fly at such altitude as will best conduce to the safety of those below him as well as to the safety of himself and his passengers, if he be carrying passengers. He shall be held liable for injuries resulting from his flying unless he can demonstrate that he had taken every reasonable precaution to prevent such injury.

Liability for injuries.

Landings.

Section 7. Except in cases of emergency an aviator shall not land in highways or public parks or other public grounds without permission from the authorities in charge thereof. In case an aviator should land in a highway, public park, or other public ground without permission, the Massachusetts highway commission may require him to prove that the landing was an emergency landing.

Not to apply to certain military aviators.

Section 8. The foregoing sections of this act shall not apply to military aviators while in the service of the commonwealth or of the United States.

Operation of aviators, etc., licensed in other states, etc.

Section 9. The said commission may permit any aviator or aeroplane which has been duly licensed or registered in another state to operate within this commonwealth for a period not exceeding ten consecutive days without requiring such aviator to obtain a Massachusetts license or to register his aeroplane.

Applicant may appeal to highway commission.

Section 10. Any applicant for an aviator's license or for the registration of an aeroplane may appeal to the Massachusetts highway commission from any decision of an employee of the said commission. In such case the applicant shall be entitled to a hearing before the commission.

In carrying out the provisions of this act the said joint board may, in its discretion, determine that any of the powers and duties hereby conferred or imposed shall be exercised and performed by either one of the two boards composing the joint board.

Damages.

SECTION 2. The said joint board shall estimate and determine, as soon as may be, all damages sustained by any person or corporation by the taking of land, or any right therein, under authority of this act, and the same shall be paid from the fund hereinafter provided; but anyone aggrieved by such determination may have his damages assessed by a jury of the superior court in the manner provided by law with respect to damages sustained by reason of the laying out of ways. If, upon trial, damages are increased beyond the award of the board, the aggrieved party shall recover costs; otherwise such party shall pay costs; and costs shall be taxed as in civil cases. No suit

for such damages shall be brought after the expiration of two years from the date of the recording of the taking, as required by the following section.

The cost of transportation of prisoners to and from the place of labor and the cost of providing them with necessary meals while so employed shall be paid from the fund herein provided for.

SECTION 5. When said lands, or any convenient part thereof, shall have been drained and reclaimed, the said joint board shall cause the same to be cultivated for not less than two successive seasons, in such manner as in the opinion of the board will best demonstrate the value thereof for agricultural uses. The products of cultivation shall not be sold in open market, but shall be used for the supply of public institutions, and such institutions shall pay to the joint board such sums for the said products as they would pay if the same were purchased in open market, and the sums so received shall be added to the sum herein provided for.

SECTION 6. The said joint board shall thereafter, at such time or times as it shall deem expedient, offer such lands for sale, in whole or in part, at a price not less than the cost of the land plus the cost of reclaiming the same. Any sums received from such sales shall be paid into the treasury of the commonwealth and credited to the ordinary

revenue until the total amount expended under the provisions of this act has been refunded, after which the proceeds shall be credited to a fund to be known as the Wet Lands Reclamation Fund and shall be used for the reclamation of other tracts in the manner herein provided.

Expenditures.

Section 7. In carrying out the provisions of this act, the said joint board may expend a sum not exceeding fifteen thousand dollars from the treasury of the commonwealth. This sum shall be in addition to any amounts received from the sale of products as aforesaid.

Proviso.

Instead of enforcing the penalty of said bond the attorney-general at the direction of the general court shall, or at the request of the board of aldermen of any city or of the selectmen of any town interested in the construction of any line of railway designated by said board of railroad commissioners under the provisions of section two of this act, may, bring a bill in equity against the Berkshire Company and said railroad corporation, in which the commonwealth shall be entitled to, and each of said companies shall, by their acceptance of this act, be deemed to have assented to, the issue of a permanent injunction or to the entry of a decree in appropriate form for the specific performance of their several contracts resulting from their acceptance of this act, directing the Berkshire Company to construct and open for use and said railroad corporation to provide in the manner prescribed in section ten the means for meeting the expense of constructing and opening for use each and all of the lines of railway designated by the board of railroad commissioners to be constructed under provisions of section two of this act which shall not have been constructed and opened for use at the expiration of the time as provided for in said section two. Attorney-general to bring bill in equity, in lieu of enforcing penalty, to enforce certain contracts.

Subject to repeal, etc.

SECTION 18. This act shall be subject to amendment, alteration and repeal at the pleasure of the general court.

(*This bill, returned by the governor to the house of representatives, the branch in which it originated, with his objections thereto, was passed, by the house of representatives June 12, and, in concurrence, by the senate June 12, the objections of the governor notwithstanding, in the manner prescribed by the constitution; and thereby has the "force of a law."*)

The Boston transit commission, hereinafter called the commission, shall construct in the city of Boston, hereinafter called the city, a system of tunnels and subways so designed as to be adapted for the use of two tracks, especially for the use of elevated cars or trains, beginning at a point at or near the northerly end of the present Washington street tunnel, through or under public or private land, public streets, squares or places and under Causeway street and under the Charles river in a northerly direction, and thence along and by such route in the direction of City Square and Main street to Sullivan Square as shall be deemed best by the commission, to a point at or near or beyond Sullivan Square, together with the approaches, sidings, entrances, stations, elevators, inclines, connections and other structures hereinafter called appurtenances, which shall also include the connections at grade or otherwise with the present Washington street tunnel. The commission shall if it deems best so construct said tunnel or subway beginning at or near City Square, thence in a northerly direction through Main street to Sullivan Square; said tunnel to connect with the elevated structure at or near or beyond the Charlestown bridge. The commission may for the purpose of connection with the present Washington street tunnel or for the purpose of connecting said tunnel with the present elevated structure at or near or beyond

the Charlestown bridge excavate or do such things as may be necessary underneath, upon or over the surface of the tracks or street, upon the locations granted to the Boston Elevated Railway Company, or to the city. The structure or structures for the tunnel or subway with the appurtenances or any part thereof shall be begun at any time after the acceptance of this act by the voters of the city of Boston voting thereon at the next city election, if and so far as the commission deems it expedient and if the company by its directors consents.

When structures shall be begun, etc.

Preliminary plans and investigations.

Section 2. The commission shall immediately after the passage of this act make such preliminary investigations, surveys, and plans as it deems expedient and to that end may enter upon any lands and place and maintain marks thereon, and may make excavations, borings and do all other acts necessary for such investigations and surveys. The commission may expend such sums of money as it deems necessary therefor to be paid by the treasurer of the city of Boston, but if construction is begun hereunder, the amount so expended shall be transferred and charged to the cost of construction.

Not to begin work until plan is filed.

Section 3. The commission shall not begin the work of construction until it has filed in the office of the city engineer a plan signed by the commission showing the location of that part of the work which it is about to construct. Any such plan so filed may be altered at any time by a new plan signed and filed in like manner.

Contracts.

Section 4. The commission may make contracts in the name of the city for the work herein authorized, but all contracts involving two thousand dollars or more in amount shall be in writing and signed by a majority of the commission and no such contract shall be altered except by an instrument in writing signed by the contractor and a majority of the commission, and also by the sureties, if any, on the bond given by the contractor for the completion of the original contract. No such contract or alteration of any such contract shall be valid or binding on the city unless executed in the manner aforesaid.

Parts of streets, etc., to be left open for traffic between certain hours.

Section 5. All work under this act under or near public streets and places shall be conducted, so far as practicable, in such manner as to leave such streets and places or a reasonable part thereof open for traffic between the hours of eight in the forenoon and six in the afternoon of each secular day except public holidays, and provision shall be

made for the protection of the elevated structure so as not to disturb or interfere with the use thereof for public travel.

Public ways may be used, lands taken, etc.

Section 6. The commission may, for the purposes of this act, use public ways and lands without compensation therefor, and may take for the city, by purchase or otherwise, lands in fee and easements, estates, and rights in land, including the right to go under the surface thereof or through or under buildings or parts of buildings thereon; and such takings in fee or otherwise may be made whether the lands taken or otherwise affected are held under or by title derived under eminent domain or otherwise. A taking under this section of an easement or other estate or right in a given parcel of real estate, whether such parcel consists of unimproved land or of land and buildings, may be confined to a portion or section of such parcel fixed by horizontal planes of division below or above or at the surface of the soil, and in such case no taking need be made of upper or lower portions or sections except of such easements therein, if any, as the commission may deem necessary.

Description of property taken to be recorded, etc.

The commission, to make any taking by right of eminent domain, shall cause to be recorded in the registry of deeds for the county of Suffolk a description of the lands, easements, estates or rights to be taken, as certain as is required in a common conveyance of land, with the statement that the same are taken under authority of this act. Said description and statement shall be signed by the commission; and the lands, easements, estates or rights therein described shall upon such recording be taken for, and shall vest in, the city.

Owners to be notified, etc.

The commission shall, so far as may be practicable, notify all known owners of such takings, but the validity of any taking shall not be affected by want of such notice.

Sale or removal of certain property.

Section 7. The commission may sell or remove the buildings from any and all lands taken by it, and shall sell, if a sale be practicable, or if not shall lease, any lands, or rights or interests in land and other property so taken or purchased for the purposes of this act whenever the same shall, in the opinion of the commission, cease to be needed for such purposes but not actually sold, as agreed on by the commission and the company, or, in case of difference as determined by the board of railroad commissioners, hereinafter called the board, shall be deducted from the cost of the tunnel or the subway, as the case may be, for the purpose of ascertaining the rental thereof.

Damages.

Section 8. The commission shall determine and award the damages sustained by any person or railroad company by reason of property taken or injured by the commission under authority of this act, except public ways or lands, and may agree with any person as to the amount to be paid as damages sustained by him for any property so taken or injured, which damages the city shall be liable to pay. If such person or railroad company is dissatisfied with such award, or cannot agree with the commission upon his damages, the same may be determined by a jury in the superior court for the county of Suffolk, on petition therefor of such person or of the commission against the city, filed in said court within three years after such property is so taken or injured; and judgment shall be entered upon the determination of such jury and costs shall be taxed and execution issued in favor of the prevailing party as in civil actions. The members of the commission shall not be personally liable for any such damage.

Person aggrieved may apply for a jury.

Temporary removal or relocation of certain structures may be ordered.

Section 9. The commission may order the temporary removal or relocation of any conduits, pipes, wires, poles or other property of any person or corporation, which it deems to interfere with the construction or operation of the tunnel or subway, and shall grant new locations for any such structures so removed or relocated. Such orders, to the extent specified therein, shall be deemed a revocation of the right or license to maintain such tracks, conduits, pipes, wires, poles or other property, and the owner of any such structures in public ways or lands shall comply with such orders without expense to the city. If such owner shall fail to comply with the order of the commission within a reasonable time, to be fixed in the order, the commission may discontinue and remove such tracks, conduits, pipes, wires, poles or other property, and may relocate the same; and the cost of such discontinuance, removal or relocation shall be repaid to the city by the owner. No such discontinuance, removal or relocation shall entitle the owner of the property thus affected to any damages on account thereof. Any such structures in or upon private lands may be removed and relocated by the commission, or, if removed and relocated by the owner thereof, the reasonable expense shall be repaid him by the commission. Any gas company may shut off the gas from any pipes affected by any acts done hereunder, when and so far as it may be necessary to avoid danger of escape or explosion of gas.

Gas companies may shut off gas when necessary.

Section 10. The commission shall, within ninety days after the passage of this act, execute with the company in the name of the city, the company consenting thereto, a contract in writing for the sole and exclusive use of the tunnel and subway and appurtenances for a term extending not beyond the expiration of existing leases of subways from the city to the company, at an annual rental equal to four and one half per cent of the net cost, as hereinafter determined, of the tunnel and subway, respectively, for the running of trains and cars therein, and for such other uses and upon such provisions and conditions, not affecting the term or rental, as the commission and the company may agree upon, or in case of difference, as the board may determine. The provisions of this act, in so far as they declare, define or establish the terms and conditions for the construction, tenure, maintenance and operation of said tunnel, subway and appurtenances, shall be embodied in and made part of said contract. The use of the tunnel or subway respectively shall begin when, in the opinion of the commission, a reasonable time after completion has been allowed for equipment. The net cost of the tunnel and subway respectively shall be deemed to include all expenditures incurred in acquisition and construction, including all damages, expenses and salaries of the commission, and any sums paid under the provisions of this act for the removal of the elevated structure and the carrying out of the provisions hereof, and interest at three and one fourth per cent per annum on the debt incurred in construction prior to the beginning of the use. If the contract for the use of the tunnel and subway is executed as above provided the commission, upon the acceptance of this act by the voters of the city as hereinafter provided, shall proceed with the work of construction.

Contract may be made with Boston Elevated Railway Company for the exclusive use of the tunnel, etc.

Section 11. If the company shall execute the contract hereinbefore provided for, the company may, before the completion of the tunnel, construct lines of elevated railway according to such plans as may be approved by the board, to be operated by electricity in respective locations heretofore granted to the company upon and over the Charlestown bridge and upon and over Causeway street, to connect with the present Washington street tunnel and the subway or tunnel to be constructed under the provisions of this act. If the commission shall decide to extend the present Washington street tunnel, as provided for in section one

Lines of elevated may be constructed upon certain locations, if contract is executed.

Not to be operated if Washington

street tunnel is extended.

of this act, the company shall not operate and maintain said elevated structure provided for in this section.

Company may apply for revision of determination of certain questions.

SECTION 12. Upon the determination by the commission of any important question arising in the course of the work herein provided for, upon which the company has previously requested a hearing, except an award of or agreement upon damages as provided in section eight of this act, the company may within three days after notice of such determination apply to the board for a revision of the same, and thereupon the board may consider and finally determine such question.

Method of construction under tracks, etc., of a railroad company.

SECTION 13. Wherever the routes upon which the commission is authorized to construct the tunnel or subway cross underneath the locations or tracks of any railroad company, the crossing and the necessary excavations shall be made in such manner and the method of construction shall be such as may be agreed upon between the directors of said railroad company and the commission, and if the parties are unable to agree as to the manner of crossing underneath the tracks or as to the method of construction at that point, the same shall be determined by said board upon the application of either party.

Boston Extension Tunnel and Subway Loan.

SECTION 14. The treasurer of the city shall from time to time, on request of the commission, issue and sell at public or private sale, the bonds of the city, registered or with interest coupons attached, as he may deem best, to an amount not exceeding the cost of the tunnel and subway herein provided for. Such bonds shall be designated on their face, Boston Extension Tunnel and Subway Loan, shall be for such terms, not exceeding fifty years, as the mayor and treasurer of said city may determine, and shall bear interest, payable semi-annually, at such rate, not exceeding four per cent per annum, as the treasurer shall determine. The debts incurred by the city from time to time under the provisions of this act shall not be included in determining the limit of indebtedness of the city as established by law, and the proceeds of such bonds shall be used to meet all damages, costs and expenses incurred by the commission or by the city in carrying out the provisions of this act. The board of commissioners of sinking funds shall establish a sinking fund for the payment of the bonds issued under this act. All premiums received from the sale thereof shall be paid into the sinking fund. All rents, tolls,

percentages, betterments and not less than one hundred thousand dollars, out of the taxes collected by the city from personal property and real estate or other annual compensation received by the city for any use of the tunnel or subway under this act, or for any use of any lands or rights taken under authority of this act, shall annually be used by the treasurer, — first, to meet the requirements of, and any deficiency in, the sinking fund, — second, to meet the interest on the bonds, and the surplus, if any, as a part of the general revenue of the city. The proceeds from any sale of lands or rights taken by purchase or otherwise under authority of this act shall be paid into the sinking fund, or shall be used for construction, as the commission may determine.

Enforcement of provisions, etc.

Section 15. The supreme judicial court and the superior court, upon application of any party in interest, including the city or any ten taxable inhabitants thereof, may enforce or prevent violation of the provisions of this act by any appropriate process.

Act to be submitted to voters.

Section 16. If the contract for the use of the tunnel and subway is executed by the commission and the company as hereinbefore provided, this act shall be submitted for acceptance to the voters of the city of Boston at the next city election, and if accepted by a majority of the voters voting thereon, it shall thereupon take full effect. The city shall have, hold and enjoy in its private or proprietary capacity, for its own property, the tunnel or subway built under this act, and all rents, tolls, income and profits from all contracts heretofore or hereafter entered into for the use of said subways or tunnels or any part thereof, and the same shall never be taken by the commonwealth, except on payment of just compensation: *provided, however,* that so much of such rents, tolls, income and profits as may be necessary therefor shall be paid into the sinking fund for the redemption of said bonds and used for the payment of the interest thereon.

Tunnel, etc., to be property of city of Boston.

Proviso.

Removal of elevated structure.

Section 17. Upon the completion of the tunnel or subway and appurtenances and upon notification as herein provided, the commission shall remove, and the company shall forthwith discontinue the use of, the elevated structure of the company between the points where the subway or tunnel has been constructed under the provisions of this act and as shall be determined by the commission. The

expense of removing the elevated structure between the points aforesaid shall be deemed a part of the cost of the tunnel or subway. The tunnel or subway during the term of the contract hereinbefore provided for shall be considered a part of the elevated railway operated by the company; and the board, subject to the provisions hereof, shall have and exercise the same power and control over the same in all respects that are conferred upon the board as to the elevated structure by chapter five hundred and forty-eight of the acts of the year eighteen hundred and ninety-four, chapter five hundred of the acts of the year eighteen hundred and ninety-seven and by other acts in addition thereto or in amendment thereof. The company, upon removal of the existing structure may sell any lands or other property acquired for the purposes of operating its elevated railway between the points aforesaid, applying all proceeds thereof to proper corporate uses; and such discontinuance or sale shall not be deemed to impair the capital of the company. *Approved June 13, 1913.*

Sale of lands, etc., upon removal of structure.

Be it enacted, etc., as follows:

An Act to modify certain locations of the Boston Elevated Railway Company and to provide for the construction of a subway in the cities of Everett and Malden. *Chap.777*

Be it enacted, etc., as follows:

Part I.

Section 1. Upon the acceptance of this act as provided in section forty-two hereof the locations for an elevated railway granted to the Boston Elevated Railway Company, hereinafter called "the company", by chapter four hundred and ninety-seven of the acts of the year nineteen hundred and seven, within the city of Malden, and that part of the location for an elevated railway granted to the company by said act within the city of Everett between the Malden line and the point of connection, which shall be south of the right of way of the eastern division of the Boston and Maine Railroad, between the subway authorized by this act and the elevated railway to be built by the company within the city of Everett, shall be revoked. The locations so revoked shall upon the acceptance of this act be of no further force and effect and the company shall not be subject to any penalty for omission to construct an elevated railway upon the said locations. The part of said location for an elevated railway in the city of Everett between the Boston line and said point of connection with the subway authorized by this act and the location in the city of Boston granted by chapter four hundred and ninety-seven of the acts of the year nineteen hundred and seven shall continue to be held by the company subject to all the terms and provisions and with all the rights and powers specified in said chapter four hundred and ninety-seven.

Certain locations granted to the Boston Elevated Railway Company to be revoked upon acceptance of this act.

Section 2. All expenditures made by the company before the acceptance of this act for, or in contemplation of, the construction of an elevated railway, or appurtenances or stations for elevated railway, upon locations revoked by this act may be treated by the company for the purposes of the issue of capital stock or bonds and other accounting purposes as part of the cost of the construction of its elevated railway upon the locations granted by said chapter four hundred and ninety-seven, which are not revoked by section one of this act.

Certain expenditures may be treated as part of cost of construction of elevated railway.

Certain authority of company to cease upon acceptance of this act.

Section 3. Upon the acceptance of this act section three of chapter four hundred and ninety-seven of the acts of the year nineteen hundred and seven shall be repealed and all authority of said company to construct any part of its elevated railway structure thereunder shall cease and determine, and if this act is accepted, the crossing of the elevated railway authorized by said chapter four hundred and ninety-seven over the waters of the Mystic river shall be made under the provisions of this section.

Structure erected over Mystic river to be approved by joint board.

The structure to be erected by the company in and over said river shall be such as the directors of the port of Boston and the board of railroad commissioners, hereinafter called "the board", acting jointly, shall, after public notice and hearing, approve.

Relocation of channel of Mystic river at Malden bridge, etc.

The directors of the port of Boston are hereby authorized and directed to order and make a relocation of the channel of Mystic river at and in the vicinity of the Malden bridge, so that said channel will at said point be nearer the middle of the river, and also to order and require the city of Boston to construct a new draw in the Malden bridge to permit the use for purposes of navigation of said channel as relocated.

Construction of draw opening, etc.

The draw opening in the bridge to be constructed by the company, and also in the Malden bridge, shall be seventy-five feet in width across the channel as relocated, and the said directors may make such requirements upon the company and upon the city of Boston as said directors shall deem necessary to secure the simultaneous operation of the said draws in said bridges. The directors of the port of Boston shall determine the cost of the city of Boston of constructing the new draw in the Malden bridge as above provided, and the said cost shall be paid by the company to the city and shall be deemed a part of the cost of the construction of the bridge to be built by the company.

Relocation of channel of Mystic river to be approved by secretary of war of United States, etc.

Section 4. Within sixty days after the acceptance of this act the directors of the port of Boston shall make an order, showing the relocation of the channel of Mystic river at and in the vicinity of the Malden bridge as authorized and directed by the preceding section, and upon making such order, said directors shall take such steps as may be necessary to secure the approval of the secretary of war of the United States, or other federal officer having jurisdiction in the premises, of the proposed relocation of said channel.

The period for the construction of the bridge to be built by the company and of the elevated railway of the company upon locations within the cities of Boston and Everett, granted by chapter four hundred and ninety-seven of the acts of the year nineteen hundred and seven and not revoked by section one of this act, shall be eighteen months beginning with the date of the approval by the secretary of war, or other federal officer having jurisdiction in the premises, of the plans for the structure to be built by the company across Mystic river: *provided, however*, that, if the construction by the company of said bridge, or of the elevated railway, or of any other part of said elevated railway and its appurtenances shall be delayed by litigation, unforeseen casualty or any other cause, the company may apply to the board for an extension of the time therefor, and the board, upon notice to the cities of Boston, Everett and Malden, and upon hearing and proof that such litigation was not collusive, or that such casualty or other cause was not due to the fault of the company, may determine what extension of time may reasonably be allowed for the completion thereof by the company, and such further time shall thereupon be allowed therefor. The board may, after notice to the city of Everett and a hearing, authorize such change of the route of the elevated structure of the company within the city of Everett as it shall deem advisable in order to provide for the connection of said elevated structure with the subway to be built under the authority of this act.

SECTION 5. The company may construct in the cities of Everett and Malden, hereinafter called "the cities", under the supervision of the board to the extent hereinafter pro-

Construction of the "Everett and Malden subway."

vided, a subway or subways, hereinafter called "the Everett and Malden subway", of sufficient size for two railway tracks and adapted to the running of elevated trains or surface cars therein, to be operated by electricity or other motive power, except steam, with approaches, entrances, sidings, stations, terminals, inclines, cuts, loops, connections and other suitable appurtenances therefor, all hereinafter called "appurtenances", beginning at such point in the city of Everett south of the right of way of the eastern division of the Boston and Maine Railroad as may be suitable for the connection of such subway with the elevated railway which the company is authorized to build within the city of Everett, and thence in and under private lands or public streets, ways or places between the easterly line of Broadway in the city of Everett on the east and the eastern division of the Boston and Maine Railroad on the west to the junction of said Broadway and Main streets in the city of Everett; thence through and under said Main street in Everett and Malden or in and under public or private lands adjacent to said street to a point or points in or near Malden square in the city of Malden. The cities, or either of them, may and shall, if, after notice and hearing, the board shall so order, discontinue or change the grade of any part of any highway or other way so far as may be necessary to accommodate the construction of said subway and appurtenances.

Preliminary investigations, plans, etc.

Section 6. Upon the acceptance of this act the company may enter upon any land so far as may be necessary to make preliminary investigations, surveys and plans, and may place and maintain marks therein, make borings and excavations, and do all other acts necessary for such investigations and surveys.

Work not to be begun until plan has been filed, etc.

Section 7. The company shall not begin the work of construction of the subway until it has filed in the office of the engineer of each of the cities a plan showing the proposed route or location thereof within such city and the general form and method of construction with the location of proposed tracks and stations and approaches; nor until the said plan shall have been submitted for approval to the mayor of the city in which the structures shown thereon are to be constructed. Any such plan may be amended or altered at any time by a new plan. After thirty days from the filing thereof, and whether the mayor

has or has not approved the plan, the company shall apply to the board, which, after such notice and hearing as it deems proper, shall approve the plan or alter the same in such manner as it may deem necessary. Each of said cities may employ a competent engineer, at the expense of the company, with whom to consult in reference to the said plan and the construction of the subway herein authorized. The company shall not begin the work of construction of any subway under or across the tracks of the eastern division of the Boston and Maine Railroad or of the Saugus branch of said railroad until the grade and elevation of such subway at such crossings shall have been approved by the board after due hearing.

Company may take lands, rights, etc.

Section 8. The company may take or acquire by purchase or otherwise for the subway purposes of this act, which purposes shall cover takings for the subway and appurtenances and for connections between the subway or subways and any elevated or surface tracks and for terminals or stations, and, also, for the relocation of any structures necessitated by the construction of the subway or appurtenances, outside the limits of public ways, parks or other public lands, any lands in fee, including the buildings thereon, and any easements or limited estates, or rights in lands including the right to go under or above the surface thereof, or through or under buildings or parts of buildings thereon, which it may deem necessary therefor; and any taking under this act in fee or otherwise may be made whether the lands taken or affected are held by title under eminent domain or otherwise. A taking or purchase of an easement or limited estate or right in a given parcel of real estate, whether such parcel consists of unimproved land or of land and buildings, may be confined to a part or section of such parcel fixed by planes or other surfaces of division below, above or at the surface of the soil, and in such case no taking need be made of other parts or sections thereof, except such easements therein, if any, as the company may deem necessary. Except as otherwise provided herein, the company may locate and construct the subway herein provided for and its appurtenances wherever it deems best within the limits herein prescribed, or for the purpose of obtaining the most advantageous alignments, curves and grades, with the approval of the board, in and under public or private lands adjacent to or near

Use of public ways, etc.

the routes herein defined. For the purposes of this act and within the limits herein prescribed public ways and parks, except Bell Rock Memorial park in the city of Malden, and lands over which the same are laid out, or other public lands, may be used without compensation for such use with the same rights and immunities which the public would have in making the same use thereof.

Description of lands, etc., taken to be recorded, etc.

SECTION 9. To make any taking for subway purposes by right of eminent domain, the company shall cause to be recorded in the registry of deeds for the southern district of the county of Middlesex a description of the lands, easements, estates or rights taken, as certain as is required in a common conveyance of land, with a statement that the same are taken for subway purposes under the authority of this act, signed by a majority of its directors; and the lands, easements, estates or rights so described shall thereupon be taken for the said purposes. The company shall at the same time give notice of such taking to the owner of the property taken, if he is known, but want of such notice shall not affect the validity of the taking nor extend the time for proceedings for damages.

Owner to be notified, etc.

Damages.

SECTION 10. The company shall pay all damages to or for property taken or injured by it in any work done in or in connection with any subway construction by it under authority of this act, except that no damages shall be payable in respect of the use of public ways or parks or the lands over which the same are laid out, or other public lands, and the company may agree with any owner of such property upon the amount to be paid as compensation or damages therefor; and if the parties do not agree such compensation or damages may be determined by a jury in the superior court for the county of Middlesex on petition of the owner against the company filed in the clerk's office before the expiration of two years from the recording of the taking, or from the time of the injury to the property; and judgment shall be entered upon the verdict of the jury, and costs shall be taxed and execution issued in favor of the prevailing party as in other civil cases. The provisions of sections seventeen to twenty-five, inclusive, and of section one hundred and fourteen of chapter forty-eight of the Revised Laws, relating to procedure in the case of damage to estates in which several parties have different or several interests, shall apply to proceedings in such

cases under this act. The company shall indemnify the cities against all liability for damages arising out of the work provided for by Part II of this act upon notice of any claim therefor and opportunity to defend against such claim.

May sell or lease certain lands, etc.

Section 11. Whenever any lands or other property of the company acquired for subway purposes under Part II of this act cease to be needed for such purposes the company may sell the same, and may at any time sell or remove any buildings thereon; or it may lease any such lands, buildings or interest in lands or other property; and may sell any surplus materials from excavations. The proceeds of such sales and leases and the fair valuation of such lands and other property not sold, as agreed upon by the city in which such lands are situated and the company, or, in case of disagreement, as determined by the board, shall be deducted from the cost to be paid for the purchase of the subway by the cities as hereinafter provided.

Mayor may order removal or relocation of tracks, etc.

Section 12. The mayor of each of said cities may, or upon the written request of the company shall, order the temporary or permanent removal or relocation of any surface tracks other than the tracks of a steam railroad, or of any conduits, pipes, wires, poles or other property of any person or corporation, except the city or the company, situated within the limits of such city, which the company deems to interfere with the construction or operation of the subway or subways constructed under this act, and at the same time the mayor shall grant relocations for any such structures previously having locations. Any such order of the mayor of either of said cities, to the extent specified therein, shall be deemed a revocation of a former right or license to maintain such surface tracks, conduits, wires, pipes, poles or other property, and the owner of any such structures, or other property, shall comply with such order without expense to the company. If the owner shall fail to comply with such order within a reasonable time, to be fixed therein, the company may remove such surface tracks, conduits, pipes, wires, poles or other property and may relocate and reconstruct the same, and the cost of such removal, relocation or reconstruction shall be repaid to the company by the owner: *provided, however*, that the removal, relocation and reconstruction of gas pipes and

telephone or electric lighting conduits or cables shall be done by the company, the owner paying for any new material required in place of the old; and the cost of the work, so far as it forms a part of the cost of any subway, shall be repaid by the owner to the city in which such structure is situated upon the purchase of such subway by such city, as hereinafter provided, with such interest, if any, as the city may be required to pay the company thereon. No such discontinuance, removal or relocation shall entitle the owner of the property thus affected to any damages on account thereof. The removal or relocation of any property of the commonwealth shall be subject to the approval of the public authorities having charge thereof or of the board, and at the expense of the company. Any gas or electric lighting company may shut off the gas or current from any pipes or wires affected by any action done hereunder, so far as may be necessary to avoid the escape or explosion of gas or other danger. Temporary locations shall be granted by the mayor of either of said cities, on request of the company, for any surface tracks owned or operated by it within such city, and, as soon as the state of the work permits, the company shall restore such tracks to the original locations as nearly as may be except in cases where surface lines are wholly discontinued. The company may remove any poles, wires, pipes, conduits, sewers, drains or other structures of the city, so far as the work may require, on condition that the same shall be replaced at the expense of the company in a condition, so far as may be, as serviceable as their condition before such removal, using such new material as may be necessary, and in such place and manner as the duly authorized city officers shall direct or approve.

Temporary locations, etc.

Section 13. Whenever the company shall make an excavation in any public way or park or other public lands it shall be upon condition that, if so directed by the mayor of the city within which such excavation is made, it shall deliver such part of the surplus materials taken from such excavation as it does not use at such point or points in the city as the mayor may direct within two miles from the place of such excavation, and such materials may be conveyed upon street railway tracks on locations then existing, or temporary locations which the mayor upon request of the company shall grant therefor. The company shall comply with all rules, regulations and ordinances of the
